- **With the help of Fundación Cepsa, students and their families enjoy guided environmental tours this year**
- **Fundación Cepsa renews its annual collaboration with the educational center**

Fundación Cepsa, through its annual collaboration with the Santa Rita Primary School in San Roque (Cádiz), has made it possible this year for students and their families to take a series of guided and dramatized nature routes throughout the year.

These families from San Roque, who have already visited the Pinar del Rey, have planned a whole program that will take them to different natural sites in Campo de Gibraltar such as the Butterfly Trail, the Guadalmesi River Trail, Pigeon Island, Fog Forest and the Valdeinfierno Trail, among others.

Estrella Blanco said that "Campo de Gibraltar is a region with great environmental wealth that we have to understand and protect. This initiative allows San Roque families to enjoy the outdoors and convey to children the importance of preserving and caring for our natural spaces.

**Fundación Cepsa** is a general interest, nonprofit entity whose aim is to carry out initiatives that serve the needs and priorities of the local communities where its founder, Compañía Española de Petróleos S.A. (Cepsa), conducts its activities. The areas of action for Fundación Cepsa are social, environmental, and scientific-educational.
